All Those Concerned With Buying Side Are Satisfied With Market Movements—Favorable Report on Government Financing Incentive for Activity

High Points in Today's Financial News

Short covering caused advances in stock market late in the day. Some eign selling in morning. Some stocks lower on Curb, while others added. Wheat market nervous all through day. Cotton ended lower. And report of Philadelphia Electric showed 11.2 per cent earned on stock. It Government weekly weather report of season indicated favorable other for winter wheat. Price of bar silver unchanged.

NEW YORK, April 11.

Nearly every one concerned in today's trading in the stock market on buying side was well satisfied with the price movements and with the which it acted under some impressive selling. Herrick & Berg, handle foreign selling orders for banking interests, sold 20,000 ares of Union Pacific, and F. Edey & Co., who also acted as foreign agents, 14 10,000 shares of United States Steel common.

This supply, which seemed to be foreign stock, checked an advancing tency that prevailed early in the day, and there were some stocks in which sounced weakness was shown for special reasons. As the trading progressed was a gradual development of pronounced strength, which more than renewed attacks by bear traders and some liquidation of uneasy ters who had not yet got over their fear of oppressive war taxation. In the last half of the day it became apparent that the oversold condition

the market had become a dominating influence, and covering of shorts came urgent in nearly all the important stocks.

United States Steel common, after reacting to 109%, rose to 111, and gains ging from 2 to 5 points were made in many shares, including Bethlehem eel, Ohio Cities Gas and General Electric. The bear demonstration in Delaare and Hudson lost its force following President Loree's statement this raing. A premium of 1-32 per cent was paid for the use of this stock for livery today, and its scarcity made many of those who had put out short

Anaconda made a gain of more than 1 point, selling at 80. The favorable port of the Government financial measures by the Ways and Means Comthe was an incentive for vigorous buying, which put many stocks up to he highest level of the day in the last hour.

In the bond market most interest continued to be attached to the transsting in foreign Government bonds; but these issues, while heavily traded did not show important changes from recently prevailing prices.

MANY ISSUES SELL LOWER ON CURB. WHILE SOME MAINTAIN STRONG TONE

NEW YORK, April 11.

While many issues on the Broad Street Curb were offered at substantial casions and lower prices generally prevailed, there were several which ntained a strong tone. Magma, in which there was brisk buying, rose early three points to 49%, and Milford, one of the newcomers in the Broad reet market, on active buying rose from 94 to 98 cents, a new high record. A good deal of importance was attached to the initial trading in Magnet Copper. olled by Philadelphia interests.

More than 10,000 shares were traded in at 75 to 76 cents. The property. shich was listed on the Broad Street Curb this morning, is one of the most ment of those located in the Twin Butte mining district, near Tucson, which, according to western advices, is fast becoming one of Arizona's greatest copper camps. Big Ledge was a weak feature, dropping from 374 to 334. United Verde sold at 38 to 3814.

The oil stocks were irregular, with Merritt advancing more than 1 point to 23 and Midwest Refining moving up 3 points to 143. Sapulpa sold at 101/4 and 10%. Submarine sold at 21%, National Conduit at 33% to 34%, Aetna

and 10%. Distriction to the

LIVERPOOL. April 11.-Spot cotton was

quiet today and 9 points higher, on the basis of 13.08d for mid-upland. The sales aggregated 6000 bales, including 5000 bales

American. The imports were 13.000 bales. The market for futures closed quiet, but steady, at a net decline of 3 to 5 points.

Annual Report Compares Favorably

With Previous Year-Gross Earn-

ings \$10,260,072

The annual report of the Philadelphia Electric Company for the year ending De-cember 31, 1916, which was issued today

at the annual meeting of the stockholders held in Camden, showed gross earnings

of \$10,266,072 as compared with \$8,777,924

in the year 1915, while the net income was \$2,794,051, or equal to 11.2 per cent on the

\$24,987,750 capital stock, against \$2,414,-550, or 9.6 per cent on the stock in the

The income account compares as follows:

In the annual report President Joseph B

McCall states that the plan for the unifica-tion of the company's properties in Phila-delphia has been successfully carried

through by the purchase and retirement of the trust certificates and the sale and trans-fer of all the properties in Philadelphia (ex-

fer of all the properties in Philadelphia (except the Edison Company) to the Pennsylvania Company; the placing of a mortgage thereon of \$60,000,000, and the issuance of \$35,335,000 bonds thereunder for the purpose of purchasing and retiring the trust certificates and providing additional capital for the immediate needs of the company.

The report further states that the management hones, in the near future, they
